

Some hazardous products may be taken back to the store where they were purchased for recycling or proper disposal. Whether due to state law or marketing strategy, some retailers responsibly assume responsibility for their product at the end of its life.

#### **Take Back Medicines and Sharps**

The Sharp Solutions for Home Medicines Program provides a safe, free and environmentally responsible way for residents to get rid of unused or outdated medicatons and hypodermic needles or other medical sharps.

These household medical wastes should never be flushed down the toilet or tossed in the garbage.

Dozens of convenient drop-off sites for waste medications and needles

include most pharmacies and many medical facilities around Santa Cruz County, with primary funding by local governments.

For a complete list of take back sites call 454-2160 or visit: www.sharpmedsolutions.org

#### **Take Back Fluorescent Lamps**

Burned out fluorescent tubes and compact bulbs must be handled carefully to avoid breakage because they contain a small but significant amount of toxic mercury. State law prohibits disposal in the garbage.

Many lighting and hardware stores in Santa Cruz County host lamp take back, funded by local governments. For a list of lamp take back sites, call 454-2160 or visit:

www.santacruzcountyrecycles.org

#### **Take Back Other Products**

- Paint 5 retail paint stores in Santa Cruz County now accept unused latex and oil paint from the public.
- Cell Phones state law requires all retailers who sell cellular phones to take them back at no charge.
- Rechargeable Batteries all retailers who sell these batteries must take them back at no charge.
- Motor Oil many auto parts stores and lube shops accept used oil & filters.
- Tires tire dealers will recycle old tires when new tires are purchsed.

Household Hazardous Waste Facilities or disposal sites also accept all materials listed in this **Take Back** section.

# Where To Recycle

in Santa Cruz County

County of Santa Cruz Department of Public Works 701 Ocean St., Room 410 Santa Cruz, CA 95060 www.santacruzcountyrecycles.org

# **Preparing Your Materials for Recycling**

## **GENERAL GUIDELINES:**

Check with your recycling program for details

#### **Bag Your Plastic Bags**

All curbside recycling programs in Santa Cruz County accept clean, dry plastic bags in your recycling cart. "Bag your bags" by stuffing plastic bags into a larger bag and knotting it at the top so it stays together during transport. Do not put loose bags in your cart. Stretchable clean plastic bags and film are acceptable such as bread and

produce bags, stretch/shrink wrap, and bubble wrap. Bags are also accepted at some supermarkets and at several drop-off centers. When shopping, please reuse or bring your own.

#### **Hard Plastics**

Rigid plastic buckets, bins, parts and toys are accepted in some cusrbside and drop-off programs. Check with your recycling program to verify which plastics they want. Remove metal parts.

#### **California Redemption**

Receive money back for soda, beer, water, wine cooler, and sports drink bottles and cans at certified redemption centers. Look for "CA Refund Value" on label.

#### **Plastic Containers**

Bottles, tubs and travs. Rinse and flatten to save space. Symbol with triangle of arrows and number imprinted on container bottom identifies plastic resin type, not its recyclability.

#### **Mixed Paper**

Any color letter, copy, computer, fax, or NCR paper, envelopes, junk mail, newspaper, magazines, catalogs, phone books, paperboard, paper bags. No napkins, tissue, food-contaminated, or crosscut shredded paper.

#### Cans

Aluminum and tin cans may be mixed with other containers in curbside programs. Separate aluminum and tin cans for drop-off and redemption. Rinse lightly.

#### Glass Jars & Bottles

Clear, brown, green. Separate by color for drop-off and redemption; mix colors in curbside collection. Light rinse; labels OK. Bottles and jars only. No pyrex, drinking glasses, ceramics, windows, or mirrored glass.

#### **Wood & Yard Waste**

Yard waste includes grass clippings, plants, weeds, leaves, tree trimmings, shrubs, ivy, wood chips, and bark. Acceptable wood waste includes unpainted and untreated lumber. No food waste, soil, plastics, bags of any kind, or trash. No pine pitch canker.

#### Cardboard

Flatten boxes. No waxed cardboard. Corrugated cardboard and brown paper bags widely accepted. Some drop-off and all curbside programs accept paperboard (cereal boxes, shoe boxes, six-pack containers, notepad backings, paper egg cartons, etc.) with cardboard.

#### **Styrofoam Banned**

No recycling centers or curbside programs in Santa Cruz County can recycle Styrofoam. With the exception of packing peanuts reused by mailing services, Styrofoam is destined for landfill disposal. Local laws ban the use of Styrofoam cups and take-out containers by food service establishments in most jurisdictions in Santa Cruz County. Styrofoam products are no longer sold in stores in parts of the county.

#### **Foam Packing Puffs**

The UPS Store and most mailing and shipping services accept clean foam packing "peanuts" for reuse. Call for **UPS Store locations** at 426-5762.

OIL RECYCLING

#### **Textile Discards**

Many local thrift stores accept clean, dry textiles along with other saleable items including clothes, shoes, belts, handbags, household items, toys, books, and sometimes furniture. Old clothes can be used for a variety of purposes depending on their condition.

#### **Backyard Composting**

Turn your leaves, grass and food scraps into a nutrientrich soil amendment for your garden. Some classes and free or discount bins are available. For a wealth of information and tips, see: www.compostsantacruzcounty.org.

#### Construction Materials

Habitat for Humanity ReStore accepts donations of used building materials (824-4704). Construction and demolition waste is recycled at the Buena Vista Landfill (454-2430) and City of Santa Cruz Resource Recovery Facility (420-6270).

# Santa Cruz County Recycling Information Line: 454-2333

#### **Recycle your Used Motor Oil and Oil Filters Curbside:** Call your program to order a free oil jug.

Drain filter and seal in a clear plastic bag. Place jug and filter next to (not inside) your blue cart for pickup day.

Drop-off: Oil and filters are accepted free at 20 oil recycling collection centers throughout Santa Cruz County.

For drop-off locations call:

1-800-CLEANUP

#### **Household Hazardous Waste**

The County of Santa Cruz HHW program allows residents to properly dispose of harmful household products such as paints, cleaners, garden and automotive products that are no longer needed. The service is

free to all residents of Santa Cruz County. Useful products are given away for free through the Second Chance Store. Call for a schedule of days and hours of operation of HHW facilities located at city and county disposal sites.

For info call:
