RE: April 24, 2004, Meeting with CSA#7 Homeowners, Department of Public Works, Supervisor Stone

Dear Supervisor Stone:

We greatly appreciated your taking time from a demanding schedule to very effectively moderate the April 24, 2004, meeting between CSA #7 homeowners and representative from the Department of Public Works. We believe the April 24th meeting was a positive follow-up to the earlier meeting on April 17 concerning the same subject. As we work together to reach accord on the remaining issues your continuing assistance is invaluable.

We also appreciated Mr. Robert Williams' offer to meet with Mr. Hornberger (Hornberger Engineering) to review and discuss water-flow data, and how some of those data might possibly apply to and affect calculation of new and fair rates for CSA#7 sewer charges.

In furtherance of our agreed intention, as stated in both meetings, to put the "issues and questions on the table," open to all CSA#7 taxpayers, we request that Mr. John Houston be invited and included in any meetings between Mr. Williams and Mr. Hornberger and/or the Department of Public Works concerning CSA#7. Mr. Williams has demonstrated that he is willing to provide data and input to the process from the standpoint of a number of condominium owners; Mr. Houston will be able to provide data and input to the process from the standpoint of a number of owners of single-family dwellings.
