## Spring Woodchip Giveaway Event

Keith Day Company, Inc. is pleased to offer free woodchips to Santa Cruz County residents while supplies last at Santa Cruz County's Buena Vista Landfill located at 1231 Buena Vista Dr. Watsonville, CA.

Keith Day Company's processed woodchips are made of sorted, unpainted, untreated lumber that has been ground. Small woodchips are a logical and inexpensive addition to your landscape project as they help suppress weeds and retain moisture in the soil around plants and shrubs.

While Keith Day Company Inc. makes every effort to sort through and process out all contaminants from the unpainted, untreated lumber and pallets that are ground, there is a slight possibility the woodchip product may contain very small amount of metal or plastic. NOT TO BE USED FOR PLAYGROUND OR OTHER APPLICATIONS WHERE INJURIES MAY OCCUR
