The plumbers listed above have committed to the following:

When providing video inspections for the County's Sanitary Sewer Lateral Program, I, and my company, will:

- Provide quality videos adhering to the following:
 - ✓ Starting with a clean camera lens and if view becomes obscured, clean lens
 - ✓ Record the entire private sewer(s) serving the parcel (multiple structures may require multiple videos) up the connection to the public sewer main
 - ✓ Recording speed not to exceed 20 feet/minute
 - ✓ Stopping at all joints/defects/ tie-ins for at least 5 seconds
 - ✓ Attempting to video in a level orientation at the bottom of the pipe looking down center of pipe
 - ✓ Linear footage markings must be recorded in the video
 - ✓ Well-lit and in color
 - ✓ Submitted in a timely manner
 - ✓ Uploaded to County Sanitation's shared collaboration folder on box.com
- Provide Inspection Reports adhering to the following:
 - ✓ Form is the current form
 - ✓ Form is filled out completely
 - ✓ APN is provided
 - ✓ All defects noticed are logged, paying special attention to signs of inflow and infiltration (I&I) and exfiltration
 - ✓ Sketch is completed and shows cleanout location
 - ✓ All questions are answered
 - ✓ Recommendations are provided (considering I&I)
 - ✓ Form is signed by a licensed plumber
